-------------	----	-------------	--------	---------------------------------	---

For more detail on each listing see: <https://historicengland.org.uk/listing/the-list>.

The oldest buildings (apart from the churches, listed graveyard headstones and the ancient barrows on the hill) are dated from early to mid-17th Century, ie from around the era of the Civil War. Many old buildings would have been destroyed by fire during the Civil War so the limited number left is not unexpected.

Although the exact reasons for Listing are, no doubt, quite formalised there do seem to be a significant number of buildings in the village that look to have historical relevance but are not Listed. This may well be because the last significant Listing exercise was in 1987 and may not have been exhaustive. Perhaps the village needs to pursue this?

Some currently unlisted buildings which may justify future attention include:

Crown Public House

Kings Head Public House (although it may well be too late now!)

Old Nelson & Nelson Cottage, High St

Row of 4 cottages at top of High St (92 – 98?)

Cromwell Cottage, High St (despite its history of being associated with Cromwell and the Civil War and being one of the oldest buildings in the village, Cromwell Cottage is not Listed!)

Hillside Cottage, Chinnor Hill

Old British School, Lower Rd (Bandroom)

Row of Cottages with Arch, 21 – 31 Station Rd

Maurice Pullen
